UPDATING YOUR COMPANY PROFILE

There are **three ways to access** your Exhibitor Center

Think of your company profile as your online stand. It's an opportunity to increase your company's discoverability and give visitors a reason to reach out to you

- 1 The navigation bar on the left side will help you access different sections of the **Exhibitor Centre**.

Click **"Company profile"** in the navigational panel to set up each section individually. Then click on **"Overview"**.
- 2 Click the **"Edit"** buttons located on the right of each section to make relevant changes or updates.

The platform saves your changes automatically. Check you have updated all sections of your profile to give your company the representation it deserves.

COMPANY PROFILE - OVERVIEW

To be contacted by as many qualified participants as possible, we advise to fill in all the **editable information** from your **Exhibitor Center**. If a field cannot be edited, please contact the organizer.

The image displays the LEAP Exhibitor Center interface. The main view shows the company profile for 'Tahaluf Events Limited' with a banner for 'LEAP x DeepFest INTO NEW WORLDS'. A sidebar on the left contains navigation links: Home, Company profile, Overview (selected), Documents & Links, Products, Team members, Leads, and Meetings. The main content area includes a 'Virtual booth QR code' section with a QR code and a 'Download QR code' button, and a 'Virtual booth advertising' section with an 'Add an ad' button. A 'Customize' button is visible next to the company logo. An arrow points from this button to a detailed 'Main information' modal.

- **Assign Meetings:** You can now assign or unassign meetings to specific team members through the chat
- **Booth Oversight:** View your booth's meeting schedule, check in on team members, or browse available marketplace extras without leaving the conversation.
- **leads in real-time:** Instantly identify and connect with your most relevant leads for today, by just asking ask, "Who are the most relevant leads for me to meet today?"
- **Exporting Leads:** By asking the Sherlock AI Assistant, easily download and manage your leads for seamless follow-up.
